

Not much movie watching today

My weather day turned into a day to install my new router. This now allows all the computers in the house to access the cell modem at the same time. Yes, this does slow down from the direct connect speed just a bit, but if only one person is on, I didn't notice any difference. But I will be able to work, my daughter will be able to do homework, and I'll finally be able to get to the internet from my linux box.

I also found out that I can IM multiple daughters at once. Could be fun if they are ever online at the same time.

Things just moved fast when I was able to get my high speed cell modem. And the speeds are getting faster every day, well almost every day.

Then on to a party with the people I work with. It was a fun time.
