AND....

For those of you who watch what you eat, here's the final word on nutrition and health. It's a relief to know the truth after all those conflicting nutritional studies:

1. The Japanese eat very little fat

And suffer fewer heart attacks than Americans.

2. The Mexicans eat a lot of fat

And suffer fewer heart attacks than Americans.

3. The Chinese drink very little red wine

And suffer fewer heart attacks than Americans.

4 The Italians drink a lot of red wine

And suffer fewer heart attacks than Americans.

5. The Germans drink a lot of beers and eat lots of sausages
and fats

And suffer fewer heart attacks than Americans.

CONCLUSION....

Eat and drink what you like. Speaking English is apparently
what kills you!
