

I should know better...

Why didn't I back this drive up? I know it was the old machine. I didn't really do that much on it. Surf the web, write a blog, catch up on a ball game. No I didn't do much on this machine.

The hard drive crashed/failed. I think I will be able to get some of the pictures that were on this machine. I think I have duplicates of all of them, but I'm not sure yet. My daughters did their homework on this machine, and I think all the old reports are toast.

Some recent pictures that I took with the phone are gone. A new e-book list, vanished. Software updates poof. Some music became an electronic ghost.

Hmm... I do have another hard drive I can drop in this machine. I think I know where the windows install disk is. Maybe I can get the machine functioning again. I may drop in some other operating system. Who knows.

Then there is one other loss. I've never used it. It was there like a memorial for the past 6.5 years. Kept when I upgraded the computer. Disk imaged over when I got this drive. Gone are some web bookmarks. Little used since 2003, simply marked "Sarah's Favorites".
