

# So very confused...

When I went to work this morning, I just logged off of a working internet connection. When I got home this evening, the connection no longer worked. After spending quite a bit of time on the phone with my provider, the only solution was to re-install the software. It worked (as you may be able to tell), but I really don't know why it worked. I really don't know why the connection failed in the first place.

It is a Cell Modem. Open it up, dial the number – Name and password are automatic. I can't see what went wrong. Neither could the tech person. I think the software reload was grasping at straws. Anyway, I've updated to the latest version, so I hope it will be good for a few months.

Oh well, I still got my laundry done today.. I just wish I had self cleaning clothes. And of course permanent press that was actually permanent. Buttons that stayed on new shirts! I wonder why my dark pants (black and blue) seem to shrink more than the browns, tans and beiges. They all started out the same brand and size. For some reason they all seem to shrink in the length.
