

If Jamiahsh can do it...

...so can I. Besides, the other theme didn't show avatars in comments, so now that two of us have them it is nice to see them. Thanks Justj and Admin for the avatar idea! I hope you enjoy this theme. Note that you can click on the squares on the upper left for some quick navigation, such as to recent comments and posts without having to scroll down. Not my idea, but part of the theme. Nice.
