

Sick Of Winter?

If you're like me, then you are sick of winter. I'm sick of getting snowed in, sick of bundling up the kids, and sick of the high heating bills. So even though it's a very dark type of humor, I did have to chuckle at this picture of a poor snowman I received via email; no doubt created by some poor soul who is a victim of the winter blues:

And since we're on the subject of snowmen, I read an article a few weeks ago with many interesting tidbits about them, so I'll share a few. After all, it's the least I can do after sharing such a depressing picture like the one above, right?

– Snowman art is one of the few activities modern man shares with his earliest ancestors. The earliest illustration of a snowman found was made in about 1380, and snow sculpting was a popular pastime during the Middle Ages.

– In the year 1494, Michelangelo sculpted snow figures in Florence, Italy.

– In 1999, residents of Bethel, Maine constructed the largest snowman ever built with 8 million pounds of snow. They beat their own record in 2008 using 13 million pounds of snow when they created Olympia (actually a snowwoman) who stood 122 feet and one inch tall and could be seen from 4 miles away! They used snow skis for her eyelashes, car tires for her lips, trees for her arms, and kids created her 6-foot nose from chicken wire and muslin. Her hand-stitched hat had a 48-foot circumference. Here is a picture of Olympia:

So don't let the winter blues get you down, especially since us here in the Midwest are having a winter relapse today with

icy winds and snow flurries – yuck! Get some snowman inspiration, and go out there and try your hand at building your own winter work of art! Hurry – the first day of spring is only a month away – and thank goodness for that!
