

# Pass the pepper please...

The title of this article just got to me. For some reason it just tickled my sense of humor.

...[NASA Sticks a Fork in Mars](#), I hope they remembered the knife and spoon.

Anyway, I do like the work the landers and orbiters are doing on Mars. In the past few years, we've learned a lot about the next planet out. I'll keep on looking for updates on what exactly this probe finds, so I can make a comment or two on that.

---

## Mars Pictures

During the past couple of days, I've again been amazed at the pictures current space missions have been sending back to earth. The [first pictures from the latest lander](#) are back. Just cool stuff. I saw one yesterday where one of the orbiters got a picture of the lander underneath the parachutes.

I am interested in all things in the space program, and these landings are on the top of my list of news stories.
