

Changing Tides

Unlike the precision of the tides, you will never know which way the wind will blow. The tides come in and go out on a very precise schedule. They have charts made for high and low tides in areas where that is important. The winds of the day can make the tide higher or lower, but it will not cause the tides to cease.

Life is very much like the tides, it flows in an almost predictable pattern. We are born, we live and then we die. The length and form of our lives depends on other influences. Inland the tides are never noticed, but they can be measured with the right equipment. On some ocean fronts you will see the tides marked on the beaches. In other places you see the marks of the tides on cliff walls. Much the same with our lives. We can sometimes see the tides and other times they are barely noticeable.

It is that way until something changes. Winds blow in, the coast line changes and the tides come in with quick fury. The winds change, and in our life things change.

We never know which way the wind will blow but we must prepare for the tides.

A cold wind blew tonight, and I was not prepared....

You knew my unspoken words. You knew the way my mind worked. You knew things before I knew them myself. You knew my heart, and I miss yours.
