

Feel Good Story?

Or an April Fools' joke. You be the judge

[Sick Sea Turtle Checks into Animal Hospital](#)

I really liked the story, and I would think turtles have some intelligence. If this turtle had been treated there before, it knew enough to go back. But today is April Fools' Day. I tend to take every odd news or too good to be true news with a skeptic's eye today. I didn't see the regular April fool notes in the story, but there was mention of some other famous turtles. Hmm, it has me thinking.

I also saw a site for a [Helicopter Hotel](#). The link may be gone now, because it was an honest April Fools' Joke.

I haven't seen much else. But I am keeping my eyes open today.
