What happened to my coffee???

I have written many times about my love of coffee. I will admit that I am a bit of a coffee snob. But I never needed to have gourmet coffee at every turn. But for the past couple of days the coffee I've had just didn't taste right. Hmmm…

At work last Friday I had one cup of coffee. It was flavored coffee (beans from a local coffee shop) and it had an off flavor. Ok, maybe I don't like that flavor, I've had some experience with that.

Saturday no coffee. Sunday no coffee. Tea tastes fine both days…

Monday coffee at lunch. It was bad even for store brands… Arrrg.

Monday dinner. I was at a well know chain restaurant that usually has decent coffee. The first cup was ok, the second cup not so good. More Arrggg.

Today I had one cup at work. My Kona blend. Can I just say it was nasty..

I think I found the problem at work, the water in our new office just isn't right for coffee or tea. My green tea in the afternoon had a weird/off flavor too. I really hope they get the water coolers. Or at least put a filter on the water. Maybe I should get a pitcher with a filter on it…

Told you I was a bit of a coffee nerd/snob. If I can be upset with the coffee based on the water it was made from. Funny the water doesn't taste bad from the faucet, just when mixed with coffee or green tea. The black tea was fine..
