

Party Like It's 1985

I found while looking at my email today:

Teen Wolf available for download soon on itunes.

Ok, call me curious or naive, but I opened the file and... sure enough it IS going to be available for download. However, the picture definitely was not of Michael J. Fox nor whoever his leading lady was (she must have had a sterling career). So I figured that it was another in a long line of endlessly uncalled for remakes. I did enjoy the original... one of my favorite MJF films (aside from the *Back to the Future* trilogy, of course). The sequel (with Jason Bateman if I remember correctly) was a waste of the ticket price and I don't recall ever watching the cartoon. ... YES, there was even a cartoon. ☐

My curiosity led me to imdb.com where I discovered that it is not in fact a movie, but a live action television series being unveiled by none other than MTV (why it is still called Music Television is still beyond me) set to premiere in June. I think I will pass on this one. And tempting though it is, I do not think I will mention the needle in a haystack faux pas that slipped passed the sensors in the original.
