

APB On My Retractable Sharpie!

If I had to name my most useful kitchen tool, I think I would probably choose my retractable Sharpie. Sharpies are those permanent markers with the thin tip – they're very useful, and you can use them without making a mess of everything unlike regular permanent markers. Well, some genius invented a retractable Sharpie – no cap to mess with, just click the end and it's ready to use – a brilliant invention, really. I used mine in my kitchen multiple times daily for various things – until it up and disappeared! I used it mostly for labeling the date on leftovers, among other things, and I had even grown to love the clicking noise it made... how I miss that!

I have a few suspects; namely three little girls who have been trying to get their hands on my retractable Sharpie since I got it! But I have no real leads, and no idea where to look for it. All I know is that I miss it! Like I said, I used it several times per day, and it's just not the same to have to open the cap on a regular Sharpie. Actually, last night I was physically unable to open the cap on the regular Sharpie – had to have my husband do it – because it was on too tight and I injured my finger. Since I only had one free hand at the time, the retractable Sharpie would have come in handy yet again! In fact, this will have to be a short post since it hurts to type everything with my left pointer finger ever since I sliced the tip off the other night. I told you I was terribly uncoordinated – see my previous post if you don't believe it. Which is why I NEED my retractable Sharpie back! If you've seen it, please contact me ASAP! Tipsters will remain anonymous!
