

Time cuts

The bible verse was 1 Samuel 2:2. The sermon jam was about how the path to God will have suffering and wont be easy. For worship we listened to Drops in the Ocean.

For math we did more on fractions, but we accidentally went 10 minutes over so we cut 10 minutes from history. For history we learned about the history of HHN. We couldn't go into the backyard for recess so we played four square in the garage. Physics was about Magnum XL 200.
